REPORT OF LIBRARIAN

Forty-two books were purchased by the Town of Mason. Fifteen were given by the State Library Commission, two by Deborah Whitaker, two by Ronald Harry, three by John B. P. C. Hill, two by C. W. Anderson, one by Beverly Dimock and the complete Poetical Works of Edna Dean Proctor by a niece and nephew of Miss Proctor.

The Town and City Atlas of the State of New Hampshire was given by Mrs. Waldo Newell in memory of her husband.

The Townsend Times is still being sent to the Library each week through the courtesy of the Editor.

The Childs Parade Magazine was sent for one year by the editors.

The New Hampshire Troubador is received regularly. Several magazines are brought in each month. A number of books were borrowed from the Concord State Library.

We are greatly indebted to Mr. C. W. Anderson for his splendid books—"Black, Bay and Chestnut" and "Deep Through the Heart"—books that are much appreciated by all lovers of fine horses.

Total number of books now in library 3,158. Circulation for the year, 1,893.

REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Mason:

I respectfully submit my eighteenth annual report as Superintendent of Schools.

SUPERVISION

In the last several annual reports I have attempted to set forth what we are doing in the primary grades with the important subject of reading. This emphasis is constantly being held, and is extended to the succeeding grades year by year. The pupils who were in Grade One when we began this special drive are now in Grade Four, except those who have had to proceed more slowly in order to receive the greatest benefit from the reading instruction.

As one observes the instruction in these grades, one sees many evidences of the superiority of modern methods in the teaching of reading. The interest of the children is more keen and real; their confidence in their own ability is greater; the progress of the timid child and of those who are by nature slower than the average is more sure and steady, because they are not forced to try to keep the pace of the faster workers.

More concrete evidences of gains in reading ability in the various grades should appear as time passes, for results in the standardized tests used should reveal what gains may be in reading and in the other subjects. Already there is some evidence of the improvement of the pupils in the upper grades, who did not have this reading program while in the primary grades but have had the benefit of the increased attention teachers have given to reading in the middle and upper grades. The average gains of pupils in these grades, as indicated by the scores they made in the reading tests of the Stanford Achievement Tests in successive years, is shown in the following table.

This study includes all the pupils in the eight towns of this Supervisory Union.

Average individual gains in Reading Scores	Grade V	Grade VI	Grade VII	Grade VIII
From Oct. 1937 to Oct. 1938	.85	1.06	.60	.51
From Oct. 1938 to Oct. 1939	1.00	1.11	.97	.99
From Oct. 1939 to Oct. 1940	1.09	1.37	1.31	1.17

In this table, a normal growth or gain for a full year is represented by 1.00. The pupils of Grade V in October, 1938, had gained .85 of a normal year's growth since taking the test in October, 1937, when they were in Grade IV; but in October, 1939, when they were in Grade VI, they had gained 1.11 in a year; when they had reached Grade VII (in October, 1940) they had made a gain of 1.31 in that year.

A similar study of the pupils in Grade IV in October, 1940, shows that they gained 1.25 from the time they were tested in Grade III in October, 1939. This measure may not be so reliable as those set forth in the table, however, due to the fact that we use the Metropolitan Test in Grade III and the Stanford in Grade IV, and the scores are not quite comparable.

MEDICAL INSPECTION

The required annual medical inspection was conducted by Dr. Karr and Mrs. Gilbert in October. They report as follows:

Number of pupils examined	19
Teachers	1
Pupils absent	1

BUDGET

The School Board's estimate for 1941-1942 follows closely the figures of last year's estimates for a one-teacher school, except that allowance is made for the continuance of an assistant teacher at \$360 for the year. It was possible to do so this year with surplus funds on hand, but money for it will have to be raised if it is to be continued next year, and the School Board recommends it. Reduced cost in the items of textbooks, scholars' supplies, other expenses of instruction, and health supervision, which are possible with the smaller enrollment, are offset by increases in the estimated cost of janitor and fuel over the estimates of last year, because it has been found this year that no reduction in those costs from former years is possible; the two rooms are used almost as much as when we had two regular teachers. The increase of \$380 in the first group of

items is, therefore, almost entirely due to the plan of having an assistant teacher.

Other statutory requirements are the same as usual, except that high school tuition will cost \$1400 instead of \$1580, and the per capita tax will be \$58 instead of \$72. There is a decrease of \$194 in the total of this group of items. The total amount of the budget is \$186 more than last year. The income from dog tax and trust funds is estimated to be the same as usual, but the State aid is lower because of adjustment credits to the State on last years account. The amount required to be assessed to meet the budget is \$3,257.31, which is \$413.31 more than last year.

Respectfully submitted,

VERNON S. AMES

Superintendent.
